# NLG Ascent Bucket Liner

PRODUCT BRIEF / 101359

Product code: 101359

A practical addition to the Ascent Bucket, the Bucket Liner provides extra protective structure and storage pockets.

The Bucket Liner is a purpose designed liner for the NLG Ascent Bucket™ to increase rigidity transforming the Ascent Bucket™ into a fully-fledged tool storage system for working at height. The liner forms a rigid lining to the bucket that retains its shape and protects the contents.

Once the Liner is added to the Ascent Bucket™, it adds 4 further tool storage pockets without interfering with the internal anchor D rings. A valuable addition to the bucket which can be easily inserted or removed and stored flat when not in use.

---

## INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

## Specification

- Works with NLG Ascent Bucket™ to provide rigid body structure and increased content protection
- Four internal pockets for handy access and tool organisation
- Fast installation with easy Velcro fastening
- Simply store flat when not in use to minimise space requirement
- Unique serial number for easy identification and tracking
- CE marked
- Dimensions: 98cm (L) x 26cm (W)

---

### SERIAL NUMBERED

Makes the management of inspection routines and reports easy and traceable
