PCN-009-2022/005-06 04 2022

PCN Details: 23M and 24M series – Removal of UL logo on packaging			
PCN Document No.	2022:005	Date of PCN:	06 04 2022
PCN issued by:	Philippe Defloor	PCN valid as of:	06 04 2022
Product Manager:	Philippe Defloor	Obsolescence Date:	
Plant Manager:	Antoinette Tirone	Change Date:	06 04 2022

Dear Valued Customer,

please note that from 6th April 2022 the below 6 part numbers (23M and 24M series in natural version) will not be sold by EDC (European Distribution Centre) in Belgium with UL certification logo on the packaging. All orders for the items hereunder will be supplied without UL certification for an undefined period:

23-Series

TYB23M - 7TCG009450R0186
 TY23M - 7TAG009040R0009
 TY523MR - 7TCG009030R0085

24-series

TYB24M - 7TCG009140R0019
 TY24M - 7TAG009130R0007
 TY524MR - 7TCG009110R0026

Orders that are already received by EDC and that have not been delivered yet, will be supplied without UL logo on the packaging. If the UL certification is a "must-have" on the above natural Ty-Rap® cable ties of the 23M and 24 series, we ask you to cancel those orders urgently. The orders can be canceled till Friday April 8th. Starting from Monday, April 11th EDC will consider all remaining orders for above 6 items as valid for delivery without UL certification.

The UL certification though, is still in force for the items of the 23M and 24M series, but solely in black UV-resistant version. Please find the available item numbers hereunder:

23-Series

TYB23MX - 7TCG009960R0068
 TY23MX - 7TAG009040R0011
 TY523MXR - 7TCG009450R0168

24-series

TYB24MX - 7TCG009960R0069
 TY24MX - 7TAG009130R0009
 TY524MXR - 7TCG009450R0172

All 12 above items are still compliant to EN/IEC 62275 and are being sold with CE marking.

Moving forward we are working to get the UL certification back on the impacted cable ties of the 23M and 24M series and we will inform you in due time when those cable ties can be sold under UL again.

Best regards,

Philippe Defloor: Philippe.defloor@be.abb.com
