

FEATURES

- Stylish black anodised finish
- PCB mounting slots
- Fins on surface of case to aid heat dissipation
- 'T' slots for mounting purposes
- Zinc plated self tapping screws

RS PRO Black Anodised Aluminium Project Box, 200 x 105 x 61mm

RS Stock No.: 185-3215

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing anodised aluminium project boxes from our trusted and reliable own brand RS PRO, a range of enclosures ideal for the installation of electricity circuitry with precision. These high standard project boxes are constructed from a hollow aluminium extrusion and feature a series of printed circuit board mounting slots inside to accept Eurocard PCB (printed circuit boards), providing flexibility and reliability in board design. These project boxes also feature a black anodised finish, offering further protection of the aluminium construction. Externally, the enclosures feature a series of fins to aid heat dissipation, preventing overheating of internal electrical components. These versatile enclosures are suitable for a variety of applications, offering protection of internal electrical components from dust and debris.

General Specifications

Body Material	Anodised Aluminium
Base Material	Steel
Colour	Black
Use	Transportation ; Freight
Ventilated	Yes
Carrying Handle	No
Applications	Enclosed switches, Installation of PCB, Electrical circuits, Button switching elements, Telecommunication

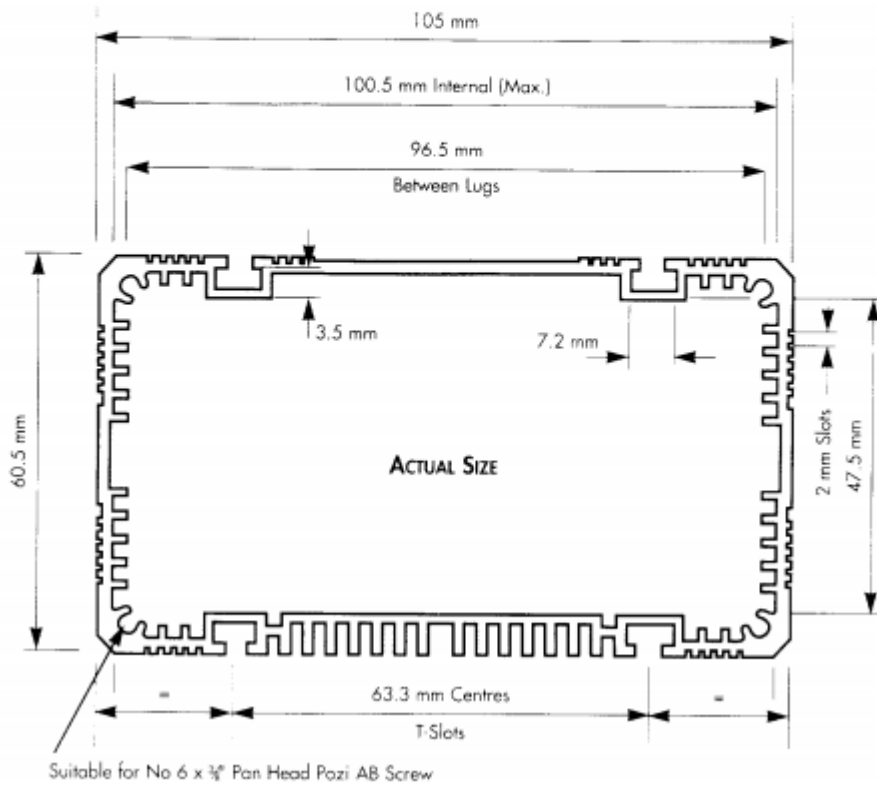

Mechanical Specifications

External Length	200mm
External Width	105mm
External Height	61mm
External Dimensions	200mm x 105mm x 61mm

Approvals

Standards Met	RoHS Compliant
