

## FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **30 mm Length:** Offers stability and support for various applications, reducing the risk of misalignment.
- **28.05 mm Outside Diameter:** Ensures compatibility with standard housings, facilitating easy installation.
- **19.98 mm Shaft Diameter Compatibility:** Guarantees a snug fit, minimizing vibration and noise.
- **Self-Lubricating Properties:** Reduces maintenance needs and extends the lifespan of the bearing.

**RS PRO 30 mm Sintered Bronze Plain Bearing, 28.05 mm OD**

RS Stock No: 518-189

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient performance. Constructed from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. The bearing's precise dimensions ensure a perfect fit for shafts with a diameter of 19.98 mm, enhancing operational efficiency.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

## Mechanical Specifications

Length	30 mm
Material	Sintered Bronze
Outside Diameter	28.05 mm
