

## FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **7/8 in Length:** Suitable for applications requiring specific dimensional compatibility.
- **0.69 in Outside Diameter:** Fits precisely into designated housings, ensuring stability and reliability.
- **0.49 in Shaft Diameter:** Compatible with standard shaft sizes for easy integration into existing systems.
- **Plain Bearing Design:** Offers smooth rotational movement with minimal maintenance requirements.

## RS PRO 7/8 in Sintered Bronze Plain Bearing

RS Stock No: 528-174

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing is ideal for use in machinery where low friction and high wear resistance are essential.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

## Mechanical Specifications

Length	7/8 in
Material	Sintered Bronze
Outside Diameter	0.69 in
