

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **68.1 mm Outside Diameter:** Suitable for a variety of shaft sizes, providing versatility in application.
- **50 mm Length:** Compact design allows for easy integration into existing systems.
- **59.97 mm Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance.
- **Plain Bearing Design:** Simplifies installation and reduces the need for complex mounting systems.

RS PRO Sintered Bronze Plain Bearing, 68.1 mm Outside Diameter

RS Stock No: 518-240

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable performance and durability. Ideal for use in machinery where low maintenance and high wear resistance are essential, this bearing ensures smooth operation and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	59.97 mm

Mechanical Specifications

Length	50 mm
Material	Sintered Bronze
Outside Diameter	68.1 mm
