

EU Declaration of Conformity for PLAG (PLA Glitter)

MCPP Netherlands BV declares that the natural version of its filament suitable for 3D printing, as mentioned above, complies with the compositional requirements according to EU Regulation No 10/2011 on plastic materials and articles intended to come into contact with food.

It can be used to manufacture articles in compliance with the requirements of EU Regulation No 1935/2004 on materials and articles intended to come into contact with food.

The fabrication process of the product meets the requirements of EU Regulation No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.

The conditions and limitations of use for this polymer are: Not specifically limited

For a specific list of colours and their suitability for food contact, please contact MCPP Netherlands BV.
