The Brother™ QL-710w label printer features ultra-fast print speeds and easy-connectivity – making it a great addition to any home office or business. Ideal for light to medium volume label printing, the Brother QL-710w can help busy professionals quickly tackle an array of labeling tasks. Print cost-effective paper labels for general office, shipping and mailing applications over a network – even print from a mobile device⁸.

How the Brother QL-710w Can Help You Become More Productive.

Ultra-fast Print Speeds

The Brother QL-710w has ultra-fast print speeds of up to 93 labels per minute¹. The durable, automatic cutter helps to further speed jobs along – by conveniently cutting after each label is printed or used to create custom-sized labels.

UP TO
93
LABELS

Easy Drop-in Tape Rolls*

All Brother label printers use a direct thermal printing mechanism with easy drop-in tape rolls – so there is no ribbon, ink or toner to replace.

Wide Range of Supplies*

The Brother QL-710w uses the DK line of cost-effective, paper labels and tapes. In addition to offering a variety of pre-sized labels for file folders, envelopes, and packages, the Brother QL-710w is also compatible with continuous-length paper and film tapes – perfect for creating custom-sized labels or printing banners and signs up to 3 feet long.

Label Collection

The Label Collection feature enables users to download and print pre-designed label templates using the included P-touch Editor software. Choose templates by category for a variety of common office applications, including labels for office signs, shipping applications, recycling programs – even retail environments.

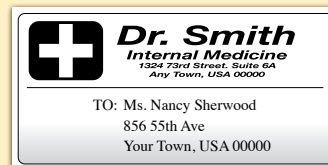

Convenience Postage Printing⁵

The Brother QL-710w supports printing stamps using pbSmartPostage™ by Pitney Bowes – the first cloud-based postage service. There is no software to download and no monthly fee. Available 24 hours a day, convenient for customers looking to save time and trips to the Post Office (USB connection required).

Postage powered by

pbSmartPostage™

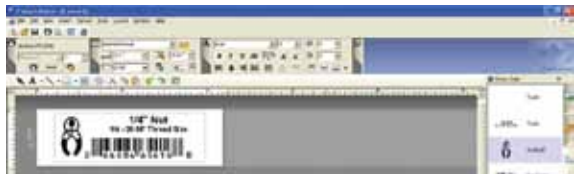

Not all label sizes shown.

* Additional purchase required. ¹ Based on using standard address labels, text only, at 300 x 300 dpi. ⁵ Enrollment in the pbSmartPostage™ service necessary, internet connection and postage label roll required. pbSmartPostage™ service compatible with Windows® only. USB connection required. ⁸ Requires connection to a wireless network. For more details regarding Brother™ iPrint&Label app visit www.brother-usa.com and search iPrint&Label. Brother™ iPrint&Label free app download for wireless printing from an Apple® or Android™ mobile device. See FAQs for additional details. iPod Touch, iPad, and iPhone are trademarks of Apple®. Android™ is a trademark of Google, Inc. Images are for illustrative purposes only.

P-touch Editor Software

The Brother QL-710w comes with powerful, but user-friendly P-touch Editor label design software. Compatible with both Windows® and Mac® Operating Systems, this software makes it easy to make customized labels from a computer using a wide range of fonts, logos, graphics, barcodes, and formatting features. Create custom labels or use one of the convenient built-in templates. Even export text directly from Microsoft® Word®, Excel®, and Outlook® to create labels without retyping⁶.

Looking for Easy Connectivity?

Built-in Wireless Networking

The Brother QL-710w offers a wireless 802.11b/g/n interface for sharing within a workgroup or for reducing the number of cables used in a home office or business. This not only saves space but allows companies to incur a lower initial purchase cost to support multiple users.

Mobile Device Printing using the Brother™ iPrint&Label app⁸

The Brother QL-710w supports mobile device printing using the Brother™ iPrint&Label app. This FREE download enables printing labels from an Apple® iPhone®, iPad®, iPod touch® or Android™ mobile device on a wireless network.

Trouble-Free Network Integration and Management.

Brother's Network Management tools provide a range of features to make it easier to manage and share on a network:

P-touch Editor Lite LAN⁶

The Brother QL-710w comes with P-touch Editor Lite LAN software – that when copied to a shared folder on a file server enables other users to create and print labels without installing the printer driver.

BRAdmin Light

BRAdmin Light is a utility used in the initial set up of Brother network connected devices. It allows the user to view the printer status, configure basic network settings, and download firmware updates to Brother network models.

Brother Software Developer's Kits (SDK)

Brother provides an easy to use software development kit for integrating the Brother QL-710w into most Windows® applications. Using the Brother Application Programming Interface (API), customers can print directly from a commonly used software application, (such as Microsoft® Excel® or Access®), instead of using P-touch Editor.

⁶ Windows® only. ⁸ Requires connection to a wireless network. For more details regarding Brother™ iPrint&Label app visit www.brother-usa.com and search iPrint&Label. Brother™ iPrint&Label free app download for wireless printing from an Apple® or Android™ mobile device. See FAQs for additional details. iPod Touch, iPad, and iPhone are trademarks of Apple®. Android™ is a trademark of Google, Inc. Images are for illustrative purposes only.
