Replacing the toner cartridge TN-2000

The toner cartridge can print *up to* 2,500 pages. When the toner cartridge is running low, the LCD shows Toner Low. Actual page count will vary depending on your average type of document (i.e., standard letter, detailed graphics).

📝 Note

It is a good idea to keep a new toner cartridge ready for use when you see the Toner Low warning.

Discard the used toner cartridge according to local regulations, keeping it separate from domestic waste. You can also check our ecology website www.brothergreen.co.uk for recycling information. Be sure to seal the toner cartridge tightly so toner powder does not spill out of the cartridge. If you have questions, call your local waste disposal office.

We recommend that you clean the machine and drum unit when you replace the toner cartridge. (See *Cleaning the laser scanner window* on page 11-23 and *Cleaning the corona wire* on page 11-24.)
How to replace the toner cartridge

⚠ WARNING

Just after you use the machine, some internal parts of the machine will be extremely **HOT!** Never touch the shaded parts shown in the illustration.

1 Open the front cover and pull out the drum unit and toner cartridge assembly.

⚠ CAUTION

To prevent damage to the machine from static electricity, do not touch the electrodes shown below.

2 Hold down the lock lever on the left and pull the toner cartridge out of the drum unit.

> **⚠ CAUTION**
>
> ■ Place the drum unit on a drop cloth or large piece of disposable paper to avoid spilling and scattering the toner.
>
> ■ Handle the toner cartridge carefully. If toner scatters on your hands or clothes, immediately wipe it off or wash it with cold water.
3 Unpack the new toner cartridge. Place the used toner cartridge into the aluminium bag and discard it according to local regulations.
> **⚠ CAUTION**
>
> ■ Brother printers are designed to work with toner of a particular specification and will work to a level of optimum performance when used with genuine Brother branded toner cartridges (**TN-2000**). Brother cannot guarantee this optimum performance if toner or toner cartridges of other specifications are used. Brother does not therefore recommend the use of cartridges other than genuine Brother branded cartridges with this printer.
>
> ■ If damage is caused to the drum unit or other part of this machine as a result of using other manufacturer's products with this machine, any repairs required as a result may not be covered by the warranty.
>
> ■ Wait to unpack the toner cartridge until immediately before you install it in the machine. If a toner cartridge is left unpacked for a long period of time, the toner life is shortened.
>
> ■ Do not touch the shaded parts shown in the illustrations to prevent any degradation to the print quality.

4️⃣ Gently rock the toner cartridge from side to side five or six times to distribute the toner evenly inside the cartridge.

5️⃣ Remove the protective cover.

6️⃣ Insert the new toner cartridge in the drum unit until it clicks into place. If you put it in properly, the lock lever will lift automatically.

7️⃣ Clean the primary corona wire inside the drum unit by gently sliding the blue tab from right to left several times. Return the blue tab to the Home position (▼) before reinstalling the drum unit and toner cartridge assembly.

8️⃣ Install the drum unit and toner cartridge assembly in the machine.

9️⃣ Close the front cover.
