RS Stock No.: 0227844

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

RS PRO Diamond Dressing Tool, 12.7mm Diameter

To achieve maximum performance from your abrasive wheel, turn to this diamond dressing tool from the RS PRO range. Designed for truing and sharpening grinding wheels, it removes unwanted debris and impurities for a cleaner cutting surface.

Diamonds are the hardest abrasive you can use for high-precision dressing. Featuring a 0.5 carat, industrial-quality diamond, this tool can clear away material down to 201 microns. A single-point dresser, it's simple to use. Just move it slowly back-and-forth across a grinding wheel that's operating at maximum speed. This compact product is 150 mm long with a diameter of 12.7 mm.

In order to guarantee its reliability and consistency, the dressing tool has been rigorously tested by RS PRO for quality. It's suitable for use with grinding wheels up to 200 mm in diameter.
