# RS Pro 30 g Yellow Dual Cartridge Epoxy Adhesive for Various Materials

### Note

Heat curing increases bond strength.

## Product Details

### High Strength Epoxy Adhesive

An industrial grade of epoxy adhesive designed for general application where high strength is required.

For use with metals, wood, glass fibre and many plastics

Mixed adhesive stays usable for 2 hours at room temperature

Cured bond is clearer than that normally associated with epoxies

Bond strength of up to 35 MPa may be achieved with clean, abraded metal surfaces

Full instructions on each pack

## Specifications:

Material Compatibility	Glass Fibre Reinforced Polymer, Metal, Plastic, Wood
Colour	Yellow
Package Type	Dual Cartridge
Package Size	30 g
Flame Retardant	Yes
