

FEATURES

- **Sintered Bronze Construction:** Provides excellent wear resistance and durability.
- **1-1/2 in Length:** Suitable for a variety of applications requiring specific dimensional compatibility.
- **2 in Outside Diameter:** Ensures a secure fit in compatible housings.
- **1.49 in Shaft Diameter:** Designed for precise alignment with standard shaft sizes.

RS PRO 1-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 594-747

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it offers excellent durability and performance in various industrial settings. Ideal for reducing friction between moving parts, this bearing ensures smooth operation and longevity.
