

Telephone Cable

Features

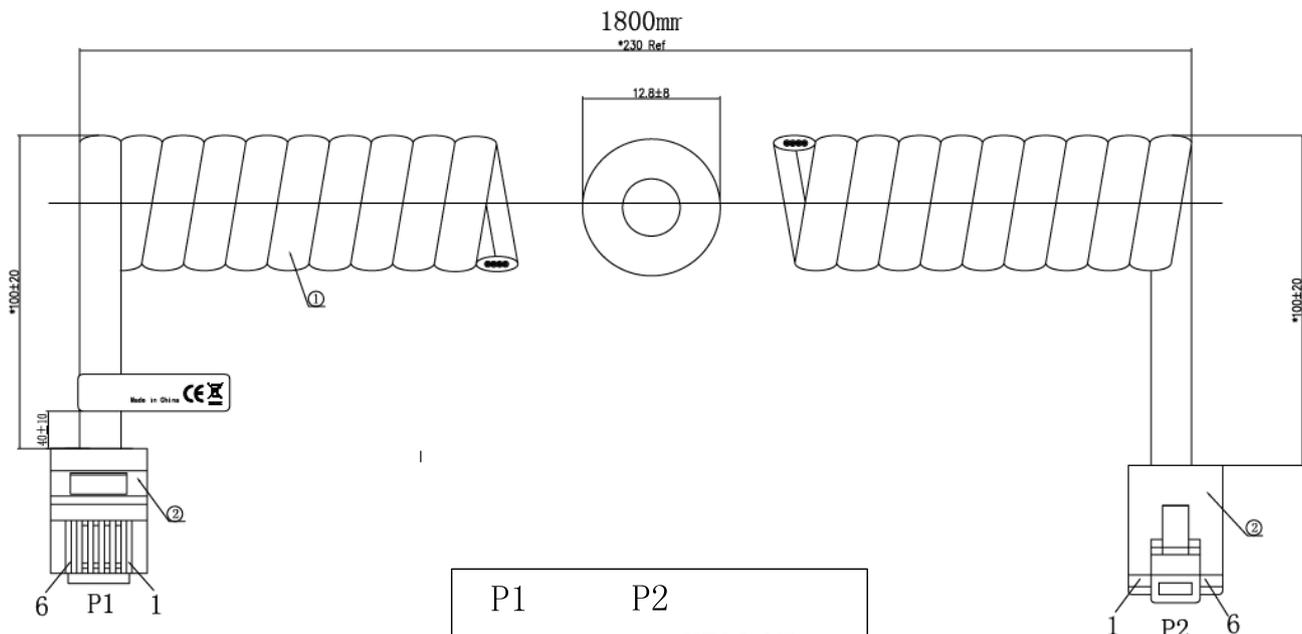

- Clear and precise communication
- RJ11 cable is most commonly used in telecommunications, for voice application
- RoHS and REACH compliant
- Commonly used for connecting a telephone with the wall socket and handset to the telephone

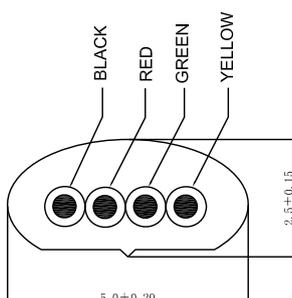

Specification

Connection A	RJ11 6P4C Plug
Connection B	RJ11 6P4C Plug
Cable Design	Coiled
Cable Length	1.8 m
Conductor	Tinned Copper
Insulation Diameter	0.9 mm
Insulation Colours	Black, Green, Red, Yellow
Jacket Colour	Black
Jacket Material	PVC
Jacket Diameter	2.5 x 5 mm
Insulation Resistance	20 MOhm
Conductor Resistance	6 Ohm max.
