

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing the need for frequent maintenance.
- **25 mm Length:** Suitable for compact installations where space is limited.
- **28.05 mm Outside Diameter:** Ensures a snug fit in compatible housings, enhancing stability and performance.
- **19.98 mm Shaft Diameter:** Designed for precise alignment and smooth operation with standard shafts.
- **High Load Capacity:** Capable of supporting significant loads, making it suitable for heavy-duty applications.
- **Corrosion Resistance:** Provides longevity in harsh environments, reducing replacement frequency.

RS PRO 25 mm Sintered Bronze Plain Bearing

RS Stock No: 518-187

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed to facilitate smooth rotational or linear movement in machinery by reducing friction between moving parts. Ideal for applications requiring low maintenance and high durability, this bearing is a reliable choice for various industrial settings.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	28.05 mm
