

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance for long-lasting performance
- **20 mm Length:** Suitable for a variety of industrial applications requiring specific dimensions
- **18.04 mm Outside Diameter:** Ensures compatibility with standard housings and fittings
- **13.98 mm Shaft Diameter:** Designed to accommodate common shaft sizes for easy integration

RS PRO 20mm Sintered Bronze Plain Bearing, 18.04mm OD

RS Stock No: 528-307

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for efficient performance in various industrial applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for supporting rotating or sliding shafts. With a length of 20 mm and an outside diameter of 18.04 mm, it is well-suited for precise engineering tasks.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	13.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	18.04 mm
