RS PRO 29 Piece Socket Set, 1/4 in Square Drive

RS Stock No.: 817-9233

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS Pro professional Chrome Vanadium Steel 1/4 inch square drive socket and bit set supplied in a compact, easy to store case. This set has 12 x 1/4 inch sockets ranging in sizes from 4 mm to 13 mm and 10 Bits including Slotted, Phillips and Pozidriv. The set can be used for most tasks especially building or repairing various objects including automobile repairs. Sockets are usually purchased as a set as only one turning tool and a set of sockets is needed which can do the job of many different spanners. Socket sets also take less space than a set of spanners and are used in various areas such as garages, in the home, engineering and metal work. When choosing what socket set to purchase always have an idea on what type of ratchet or wrench you need as using the wrong size will damage the fastening, making it harder to move.
