

DEWALT XR FLEXVOLT 125mm 60G Flap Disc

DT99584-QZ

- Lasts up to 2X longer life than its predecessor
- Constructed from ceramic high density abrasive grains
- 60G Provides course finish

Description:

The DEWALT XR FLEXVOLT 125mm 60G Flap Disc has been engineered for extreme repetitive heavy duty grinding on ferrous and non-ferrous metals. Constructed with professional high performance dense abrasive ceramic grains for a tough durable concentration. The disc is optimized to work best with XR FLEXVOLT power tools. Ideal applications include grinding welds, surface preparation such as sanding down of primer and light rust.

Specifications	
Diameter	125 mm
Grit Size	60 G
Bore Size	22.23 mm
Max Speed	12250 rpm
Abrasive Material	Ceramic
