PHE 1130TGRSB

Tapered grid coupling hub

In high output (kW) and high torque applications where limited space is available, and vibration, shock loads and misalignment occur, SKF Grid Couplings are an excellent choice. The unique design of the grid and hub teeth enable these couplings to accommodate

movement and stresses from all three planes. The design also makes realignment virtually unnecessary and further reduces downtime and maintenance costs.

- Designed for high speed and general purpose
- Suitable for applications with limited space available
- Accommodate movement and stresses from all three planes

Overview

Dimensions

Bore diameter max	165 mm
Bore diameter min	66 mm
Diameter	217.5 mm
Length	161.9 mm

Properties

Component	Hub
Size	1130

Logistics

Product net weight	48.8 kg
eClass code	23-03-10-90
UNSPSC code	31171537

Terms of use

By accessing and using this website / app owned and published by AB SKF (publ.) (556007-3495 · Gothenburg) (“SKF”), you agree to the following terms and conditions:

Warranty Disclaimer and Limitation of Liability
Although every care has been taken to assure the accuracy of the information on this website / app, SKF provides this information "AS IS" and DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.
