

FEATURES

- **Sintered Bronze Material:** Offers high strength and durability, ideal for demanding environments
- **45 mm Length:** Suitable for various mechanical applications, providing flexibility in design
- **44.06 mm Outside Diameter:** Ensures compatibility with standard housings, simplifying installation
- **37.97 mm Shaft Diameter:** Designed to fit precisely with shafts, reducing wear and extending service life

RS PRO Sintered Bronze Plain Bearing, 45 mm Length

RS Stock No: 558-432

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient motion control. With its robust construction, it provides excellent performance in reducing friction between moving parts, ensuring smooth operation and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	37.97 mm

Mechanical Specifications

Length	45 mm
Material	Sintered Bronze
Outside Diameter	44.06 mm
