Overview

This small 55x70mm 0.5W monocrystalline solar panel delivers high solar energy transformation efficiency for DIY projects. It features a waterproof resin surface, sturdy back, and a 2mm JST connector, suitable for sun tracking chargers and automatic brightness sensors.

Key Features

- Made of single-crystal material (monocrystalline) that performs high solar energy transformation efficiency Small
- but able to provide enough power for your DIY projects
- A fine resin surface which makes it waterproof and a sturdy back suitable for outdoor environments
- A 2mm JST connector is attached to the panel, which makes it perfect to team up with most of our can-use-solar-power-supply boards

Applications

- Sun Tracking Charger
- Automatic Brightness Sensor

Part List

0.5W Solar Panel 55x70	1
