Cable Tie Mounts

CTAM and CTAP, MB and TY Cable Tie Mounts

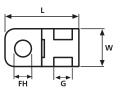

Features and Benefits

CTAM and CTAP mounts are suitable for applications with minimal space. They are mounted onto the equipment prior to cable installation as they are installed "in line" and take up no more space than the cable itself.

The CTAM has a "4-way" entry design and can be used either "in line" or at 90 degrees to the cable run. The CTAP mounts offer an adjustable 'stand off' feature allowing the cable run to be precisely positioned.

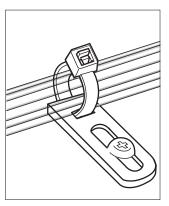

Application

Each of these products offer particular benefits, but all are designed for simple, yet robust, installation in a wide variety of applications. Particularly used in telecoms equipment, switchgear and control cabinets.
