## **Communication Circuit Accessories Certified for Canada - Component**

### **Guide Information**

**STEWART CONNECTOR SYSTEMS INC**

E132408

1118 SUSQUEHANNA TRL S

GLEN ROCK, PA 17327 USA

**Modular jacks, shielded and unshielded**, Series 63, 64, 65, 66, 68, 70, 71, 72, 73, 74, 75, 74200 followed by alphanumeric suffixes, may be prefixed by "SS". Intended for printed circuit board mounting.

**Modular plugs, shielded and nonshielded**, Series XXX-XX-DS-XXX-30XX, XXX-XX-SP-XXX-30XX, XXX-SP-36XXXX, XXX-XX-SP37-XXXXM2, XXX-XX-SP-37XXXXSM2, where X represents the number of positions and types of contacts employed, the blade or plating thickness if other than standard . May be followed by alphanumeric suffixes.

**Compu-shield jacks and shielded plugs**, Series SS-31, SS-32, SS-61, SS-62. May be followed by alphanumeric suffixes.

**Cable ready jacks**, Series SS-80, SS-82 followed by alphanumeric suffixes.

**Cat. 6 Modular plug**, 39 Series followed by alphanumeric suffixes.

**Dummy modular plug**, 33 Series followed by alphanumeric suffixes.

The plugs and jacks are intended for indoor use only on the equipment side of a Listed primary telephone protector.

Marking: Company name, model or type designation and Recognized Component Mark for Canada

### **Communication Circuit Accessories Certified for Canada - Component**

The devices covered under this category are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. THE FINAL ACCEPTANCE OF THE COMPONENT IS DEPENDENT UPON ITS INSTALLATION AND USE IN COMPLETE EQUIPMENT SUBMITTED TO UNDERWRITERS LABORATORIES INC.

These devices are for use as components in residential or commercial communication station applications for connection to the protected portion of the incoming communication circuitry where protection is required by the Canadian Electrical Code (CEC) and/or the local authorities having jurisdiction. They may accessorize communication circuit protectors (QVGV7) and may be installed integral to telephone protectors or telephone equipment.

The basic standard used to investigate products in this category is CAN/CSA-C22.2 No. 182.4-M90.

Marking — Products Recognized under the Component Program are identified by markings consisting of the manufacturer's identification and catalog, model or other product designation. In addition, component products which are produced under the UL Component Recognition Program also bear the Recognized Component Mark for Canada, .

A component that has also been investigated in accordance with industry performance specifications, is marked with the statement "Also Evaluated by Underwriters Laboratories Inc. in Accordance with (specification name and/or number and, if appropriate, category designation)" adjacent to the Recognized Component Mark.

The Listing or Classification Mark of Underwriters Laboratories Inc. is not authorized for use on or in connection with Recognized Components. Only those components which actually bear the "Marking" should be considered as being covered under the Component Recognition Program.
