

## Heavy Duty Spiral Binding

MADE FOR REAL 

### HDR/HDF Spiral Binding

A heavy duty, high performance spiral binding used to protect and prevent damage to cables and hydraulic hoses.

This UK manufactured product is available in either a flat or round profile and is made using Polypropylene material.

With excellent resistance to water, oils and solvents this protection solution also provides great mechanical abrasion and crush strength properties.

Operating Temperature of -30°C to +100°C.

#### Features and Benefits

- Made from Polypropylene
- Protects against cuts, abrasions and crushing
- Resistant to water, oils and solvents
- 8 diameters from 10 – 50mm
- Temperature rating -30°C to +100°C
- Manufactured in the UK
