RS PRO Insulated Open End Wrenches (1000V)

EN

A complete range of insulated open end spanners from RS PRO manufactured from highly durable chrome vanadium steel, chrome plating and featuring a double layer colour insulation. These wrenches are an excellent tool for use with nuts and bolts on live electrical circuits up to 1000 volts for safety and efficiency. Available in a range of sizes from 5.5mm up to 24mm, these spanners are designed with safety and usability in mind, allowing you to work with confidence.

Product features:

- For work on live equipment up to 1000 volts
- Chrome vanadium steel
- Chrome plated
- Jaw angle 15°
- 2 layer colour insulation coating
- Comply with IEC 60900, ISO 691
- Tested to 10,000V AC
