

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity, reducing maintenance needs.
- **40 mm Length:** Suitable for applications requiring compact and efficient bearing solutions.
- **28.05 mm Outside Diameter:** Ensures compatibility with a range of housings and assemblies.
- **Optimised for 19.98 mm Shaft Diameter:** Guarantees precise fit and smooth operation, enhancing performance.

RS PRO 40 mm Sintered Bronze Plain Bearing

RS Stock No: 528-878

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, offering excellent durability and performance in various industrial applications. Designed for use with a 19.98 mm shaft diameter, this bearing ensures smooth operation and reduced friction, making it ideal for machinery and equipment that require reliable motion control.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	28.05 mm
