## RS PRO 3m 6 Socket Type G - British Extension Lead, 230 V

RS Stock No.: 811-7112

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

From RS PRO this rack mounting horizontal PDU is ideal for convenient power distribution to various devices.

The power distribution unit features a guarded switch on the front facing side, so that multiple device management is practical and convenient.

The unit has wide screw holes for easy and secure mounting, and a 3-metre back-fed lead, so the PDU itself does not have to be placed too close to a mains power outlet.

## General Specifications
