Product Description

Rev. 01 2025

- This tools set is ideal for applications in microelectronics, jewellery making, laboratory, watch making and repairs, DIY.
- Tools are made in Italy with high carbon steel and undergo a controlled atmosphere heat treatment and equipped with a return spring designed to have a constant force.
- The anti-slip bi-material dolphin handle is created following ergonomic principles, thus guaranteeing a safe, light and comfortable grip for the operator.
- Tweezers are anti-magnetic, with good corrosion resistance to most chemicals, acid and salt materials. Made from austenitic stainless steel.
- Screwdrivers are made from Chromo-Vanadium-Molybdenum steel blades with black tips having a black oxide treatment with ergonomic bi-component handles. Rotating cap.
