

## Features

- Flame retardant
- Low thermal conductivity
- Excellent sound absorption
- Good mechanical strength
- Adhesive backed for easy fitting

## RS PRO Adhesive PUR Foam Acoustic Insulation, 700x500x50mm

RS Stock No.: 0517852

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

*A flexible flame retardant open cell acoustic foam, with a controlled cell structure, offering excellent sound absorption properties. A Polyether/Polyurethane foam, the material is very robust with good mechanical strength and may be applied to curved surfaces or compressed to fit complex and awkward shapes.*

*Applications: An effective absorber used in a wide variety of applications and industries such as automotive, marine, aerospace, HVAC, air conditioning and OEM. Used effectively as ductwork lining, absorber panel infills, absorption linings and sound reduction panels in generators, boats, cars off road vehicles, process plant and electrical equipment.*

*Installation: Our high-performance self-adhesive products adhere to most surfaces. In some cases, secondary mechanical support maybe required employing fixing pins should the acoustic panels be large or held upside down as in the case with roof panels.*

## General Specifications

Panel Type	Eggbox Foam, with adhesive backing
Polymer Type	Open Cell Polyether
Colour	Dark Grey
Density	27 – 30 kg/m <sup>3</sup>
Size	700 x 500mm
Thickness	50mm total, with a 25mm base and 25mm rise
Total Weight	375 grams

## Mechanical Specifications

Temperature Resistance	-30 to +110 °C
Thermal Conductivity	0.036 W/m.K
Adhesion to Steel (Afera 4001)	13N/25mm
Dynamic Shear	0.16N/per mm <sup>2</sup>

## Approvals

Declarations	MFR Declaration of Conformity
Fire Resistance	BS4735 self-extinguishing
	FMVSS302 self-extinguishing
	ASTM D1692 max extent burnt 60mm
	UL94 HF1
