

Features

- **Designed for Securing Power Cords** – Ideal for computers, lab equipment, test instruments, and power supplies.
- **Durable Construction** – Made from stainless steel, PVC, and nylon for long-lasting performance and corrosion resistance.
- **Compatible with IEC 60320 Connectors** – Perfectly fits standard input connectors commonly used in electronic devices.
- **Simple Operation** – Rotate the built-in knob to tighten and secure the power cord firmly in place.
- **Compact and Portable** – Lightweight design makes it easy to transport and deploy across workstations.
- **Enhances Electrical Safety** – Prevents accidental or unauthorised reconnection of power during maintenance or servicing.

RS PRO Computer Power Cord Lockout

RS Stock No.: 0710492

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

- *The Computer/Power Cord Lockout secures removable power cords to prevent accidental re-energisation.*
- *Compatible with IEC 60320 connectors, commonly found in monitors, computers, and lab instruments.*
- *Built with rugged stainless steel, PVC, and nylon for durability and corrosion resistance.*
- *Easy-to-use knob mechanism ensures a tight, secure fit around the power cord.*
- *Essential for workplaces that demand safe electrical maintenance procedures.*
- *Apply an individual padlock through the designated hole to ensure individual lockout.*

General Specifications

Type	Plug Lockout
Material	Stainless Steel, PVC, and Nylon
Colour	Red
Padlock holes	01
Package	PE-LD

Mechanical Specifications

A	6.5mm
B	29mm
C	91mm
D	24mm
Weight	48 Grams

Operation Environment Specifications

Withstand temperature	-20°C to 90°C
-----------------------	---------------
