- Dual UV-resistant polycarbonate inspection windows
- Twin toggle latches with split pins for secure closure
- Supplied complete with labels

RS PRO Double 6-12kg Fire Extinguisher Box

RS Stock No.: 885314

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

RS PRO double fire extinguisher box, designed to securely store and protect two fire extinguishers while providing fast, reliable access in emergency situations. With a front-loading design and the choice of toggle latch or break-glass access, this robust enclosure is ideal for commercial vehicles, industrial sites, and building installations.

Constructed from durable UV-stabilised roto-moulded polyethylene, the box is built to withstand harsh environments while safeguarding extinguishers from water, dust, and UV exposure. Two UV-resistant polycarbonate inspection windows allow quick visual checks without opening the box, ensuring your extinguishers remain visible and ready for use.

Inside, ladderlock buckles with webbing straps keep both extinguishers securely in place during transport.

Designed for demanding environments where durability, protection, and rapid access are essential, this double fire extinguisher box provides a dependable storage solution for commercial fleets, construction equipment, industrial facilities, and public buildings.
