

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **1-1/2 in Length:** Suitable for a variety of shaft sizes, ensuring compatibility and ease of installation.
- **2.75 in Outside Diameter:** Offers stability and support for mechanical assemblies.
- **2.24 in Shaft Diameter:** Designed to fit standard shaft sizes, reducing the need for modifications.

## RS PRO 1-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 594-764

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The RS PRO 1-1/2 in Plain Bearing made from sintered bronze is designed for smooth and efficient operation in various mechanical systems. This bearing is ideal for applications requiring low friction and high wear resistance, ensuring longevity and reliability in demanding environments.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	2.24 in

## Mechanical Specifications

Length	1-1/2 in
Material	Sintered Bronze
Outside Diameter	2.75 in
