

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **25mm Length:** Compact size for versatile installation options.
- **25.05mm Outside Diameter:** Ensures a precise fit in compatible housings.
- **19.98mm Shaft Diameter:** Designed for optimal performance with standard shafts.

RS PRO 25mm Sintered Bronze Plain Bearing

RS Stock No: 528-992

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for high-performance applications where durability and reliability are essential. Made from sintered bronze, it offers excellent wear resistance and is ideal for use in environments where lubrication is limited. Its compact design makes it suitable for various industrial applications, providing smooth and efficient operation.
