

TOOLED MAINTENANCE SUITCASE 181 PIECES

BV.GMS181PB

Easy to carry :

- Despite its **sturdy build**, the aluminum case **remains lightweight and portable**.
- It features a convenient **folding handle** for easy lifting and transport.
- For added comfort, a **reinforced shoulder strap** is included, with stainless steel fastening hooks and a cushioned pad at shoulder level, making it **comfortable to carry even when fully loaded**.

Empty case : BV.BAS

Overall dimensions: L470 x D390 x H155 mm
Weight: 11,22 kg

A **robust lightweight aluminum case**, featuring reinforced corners and durable metal latches.

Organised efficiency :

- Inside, the case is **cleverly designed with three trays and one foam module**. Each tray is equipped with Velcro or elastic straps to securely hold your tools in place, preventing movement during transport.
- The **vertical storage system allows for instant access**, with secure elastic bands and clearly drawn slots for each tool, making organization simple and efficient.
- The two-tone foam module **makes it easy to spot any missing tools** at a glance, helping you keep your set complete and ready for use.
