

# Anchor Granit WBA 100

Art. no. 27161

Page 1 of 2

## Technology

- 16 mm round shackle made of special hardened steel for highest resistance
- Mounting accessories included

## Operation and use

- The anchor allows the locking of two-wheel vehicles in garages, cellars, at houses and carports. The WBA 100 can be mounted to the ground as well as to the wall. In combination with a high level ABUS lock it builds a very secure unit.

## Tips

- After installing this anchor correctly it can only be removed with a considerable effort - the usage in rented places has to be checked by the installer
- Due to the flat design and the high quality plastic, the WBA can be overrun by vehicles without any problem e.g. in garages
- The WBA 100 is weatherproof and can be installed indoors or outdoors

A highly secure link
