

## FEATURES

- **Sintered Bronze Material:** Offers high strength and resistance to wear, ensuring long-lasting performance.
- **1/2 in Length:** Suitable for a wide range of applications, providing versatility in design.
- **0.43 in Outside Diameter:** Ensures compatibility with standard housings, facilitating easy installation.
- **0.24 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing adaptability.
- **Plain Bearing Design:** Provides smooth operation with minimal maintenance, reducing downtime and costs.

## RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-150

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, it provides excellent durability and low friction, making it ideal for reducing wear and extending the lifespan of machinery components.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.24 in

## Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.43 in
