

Features

- **Universal Compatibility:** Designed to lock out a wide range of butterfly valves across various industrial applications.
- **Trigger-Jamming Mechanism:** Specifically engineered to jam the valve lever release trigger, preventing accidental or unauthorized operation.
- **Secure Locking Action:** Once placed between the valve lever and release trigger and hinged open, it locks both parts in a fixed, frozen position.
- **Enhanced Safety Assurance:** Ensures complete valve immobilisation during maintenance, servicing, and isolation tasks.
- **Durable Construction:** Built to withstand demanding industrial environments and provide reliable long-term performance.
- **Easy-to-Use Design:** Simple placement and locking method allow for quick application by maintenance personnel.

RS PRO Universal Butterfly Valve Lockout

RS Stock No.: 0750830

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

- *A versatile and reliable lockout device designed specifically for butterfly valves in various industrial applications.*
- *Prevents valve operation by jamming the valve lever's release trigger, ensuring complete immobilisation.*
- *Works by placing the device between the valve lever and release trigger; once hinged open, it locks both components firmly in a fixed position.*
- *Ensures the valve remains securely locked during maintenance, servicing, or isolation procedures.*
- *Ideal for enhancing safety and preventing accidental or unauthorised valve activation.*

General Specifications

Type	Universal Butterfly Valve Lockout
Material	Glass-filled & Metal
Colour	Red
Padlock holes	03
Package	BOPP

Mechanical Specifications

A	14.5mm
B	59mm
C	54mm
D	48mm
Weight	52 Grams

Operation Environment Specifications

Withstand temperature	-30°C to +110°C
-----------------------	-----------------
