

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, suitable for high-load applications.
- **5 mm Length:** Compact size allows for versatile use in tight spaces.
- **9.03 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **4.99 mm Shaft Diameter:** Provides a precise fit for optimal performance.
- **Self-Lubricating:** Reduces maintenance needs and enhances operational efficiency.

RS PRO Sintered Bronze Plain Bearing, 5 mm Length

RS Stock No: 528-939

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient motion. This plain bearing is ideal for reducing friction between moving parts, ensuring smooth operation and longevity in various mechanical systems.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	4.99 mm

Mechanical Specifications

Length	5 mm
Material	Sintered Bronze
Outside Diameter	9.03 mm
