

## SH93 Waterproof/Shock-Resistant External Hard Drive

Born Tough – A Portable HDD Like No Other

ADATA Superior Series SH93, the world's first waterproof and shock-resistant portable HDD, is a heavily armored storage device designed especially for people with mobile and athletic lifestyles. Wrapped in a rubberized enclosure, its innovative waterproof structure and all-protective Styrofoam on the inside, the Superior Series SH93 serves to ruggedly shield valuable data from water and damage caused by accidental drops or hard impact<sup>1</sup>. The Superior Series SH93's vibrant color and clean-cut design exude unique charm that appeals to the most active users.

### The First-Ever Waterproof HDD

No more worries about losing valuable data due to spilled drinks. The Superior Series SH93 passed the stringent IEC 529 IPX7 test, in which the device proved water-tight after being submerged in meter-deep water for up to 30 minutes.

## Military-class Shock Resistance

With its unique shock-absorbing structure, the Superior Series SH93 also passed the U.S. military-class MIL-STD-810F 516.5 drop test<sup>2</sup>. Its rugged design survives those inevitable occasional knocks and bumps, and survives accidental drops onto tough surfaces, thus greatly enhancing survivability of stored information.

## Wrap-around USB Cable

The unique wrap-around USB cable storage design enhances portability while preventing cable misplacement, so you needn't worry about forgetting or losing the cable. The cable attaches snugly to the sides of the device.

## Blue LED Indicator

The Superior Series SH93 2.5" Portable Hard Disk Drive features a bright cold-blue LED indicator that shines through the enclosure to indicate power and data transfer status.

1. We cannot guarantee that the hard drive device, data, or the housing will not be damaged with any matter of usage, under any condition or in any environment. Despite it being extremely durable, please do not purposely drop, throw, submerge, pour water on this product.

2. This product fully meets the U.S. military transit drop test "MIL-STD-810F 516.5 procedure IV," which involves subjecting the device to a freefall from a platform 122 centimeters high to a concrete floor or other hard surface. Twenty-six points of impact include all eight corners, the 12 ridges and six surfaces of the HDD.

3. Free download of the valuable software and product registry are available for ADATA products printed with Software Download mark only.

<b>Capacity</b>	500GB/750GB/1TB
<b>Color</b>	Yellow/ Red/ Black
<b>Dimensions</b>	129 x 97 x 19.2mm (L x W x H)
<b>Weight</b>	240g
<b>Interface</b>	High-speed USB 2.0
<b>System requirements</b>	Windows 2000, XP, Vista, 7 Mac OS X 10.4(*) Linux Kernel 2.4(*)
<b>Accessories</b>	USB cable
<b>Note</b>	This product fully meets U.S. military transit drop test "MIL-STD-810F 516.5 procedure IV" and water resistant standard "IEC 529 IPX7" (Submersible 1 meter at 30min). It is a labotary certification which does not guarantee that hard drive device, data, and housing will not be damaged withusage at any condition or environment. Please do not intentionally drop, smash or splash liquid onto this product.
