

Features

- ESD – Designed to safely discharge static electricity and protect electronic components from electrostatic discharge events.

RS PRO ESD Worktable add-on 1200x500 H-type

RS Stock No.: 0687757

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested

by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

ESD WORKTABLE ADD-ON H-TYPE

The “H” extension for ESD modular workstations is a flexible add-on that allows for the customization of the workspace according to the specific needs of the production process. Its robust “H”-shaped construction provides stability and even distribution of load, which is crucial for efficient and safe operation.

The extension is fully compatible with existing modular workbenches, making it easy to integrate into an already functioning workspace. It can be mounted on either the left or right side of the workstation, offering flexibility in space arrangement. Additionally, the height can be adjusted incrementally every 50 mm, allowing precise customization to specific operational requirements.

The materials used in the extension and its design effectively eliminate the risk associated with electrostatics, ensuring a safe working environment for sensitive electronic equipment. These features make the “H” extension an ideal solution for dynamic production environments where precise workspace organization is critical.

Compatible with H Type RS PRO workbenches 1200/1500/1800/2000

General Specifications

WIDTH (mm)	1200
DEPTH (mm)	500
WEIGHT (kg)	25
MAX LOAD (kg)	150
TYPE OF HEIGHT ADJUSTMENT (mm)	MANUAL 50 mm STEP
ESD	YES
COLOUR	RAL 7035 (LIGHT GREY) RAL 9005 (BLACK)
MATERIAL OF TABLE FRAME	CONSTRUCTION STEEL
TABLETOP	DOUBLE SIDED ANTISTATIC, DISSIPATIVE, WITH GRAPHITE ADDITIVE, COVERED WITH A MELAMINE LAYER, THICKNESS 25 mm
TYPE OF GLIDES	SELF-LEVELLING
RESISTANCE GROUNDING (0hm)	$10^4 - 10^8$
ADDITIONAL INFORMATION	When ordering such an extension to an existing table, we have to send the customer an additional front brace for such a table, so that it has mounting holes.
