

Datasheet

Noga articulated heavy duty camera arm

RS Stock number [264-3564](#)

Description

Will accept SLR Camera, CCTV, Levels and Beacons mounted using a standard 1/4in. Whitworth thread

Ideal where Fast/Frequent camera adjustment and installation is required

Articulated Noga Centre lock arm allows camera to be easily moved to any position and clamped rigidly in one operation and can also be partially clamped to allow manual panning of moving objects

Ideal for use where tripods or conventional brackets are impracticable

Clamp jaw has maximum opening of 75mm, V groove for clamping round or square objects and plastic non-marking pads
