- Various thread sizes available
- Great corrosion resistance
- Head height is equal to shank diameter
- More cost effective than titanium
- Stainless steel

RS PRO M5 x 10mm Hex Socket Countersunk Screw Plain Stainless Steel

RS Stock No.: 304-4889

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Our popular hexagon socket countersunk screws are an excellent choice when you need a fastener to sit flush or below the surface of your material. These RS Pro A4 (316) stainless steel metric thread countersunk screws are designed for light duty applications where space is limited. These fasteners are used where a strong, reliable joint is required. They ensure an attractive, quality appearance and finish wherever they are used and give you exceptional resistance to corrosion. All models are highly reliable and excellent quality.

General Specifications

Thread Size	M5
Head Shape	Hex Socket Countersunk
