

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity, reducing the need for frequent replacements.
- **6 mm Length:** Compact design suitable for tight spaces, ensuring versatility in application.
- **7.03 mm Outside Diameter:** Offers a precise fit for enhanced stability and performance.
- **3.99 mm Shaft Diameter:** Compatible with a wide range of shafts, increasing its applicability.
- **Self-Lubricating:** Reduces maintenance requirements and ensures smooth operation over time.
- **Corrosion Resistant:** Suitable for use in challenging environments, extending the bearing's lifespan.

**RS PRO 6 mm Sintered Bronze Plain Bearing,
7.03 mm OD**

RS Stock No: 528-922

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing is ideal for use in environments where low maintenance and high wear resistance are crucial.
