# Why, Charles Bentley?

A company with **years of experience** and knowledge available to provide you with 9 categories packed with product. We are positive our services can provide something for you.

**Charles Bentley** are **global manufacturers** & suppliers of home, garden & leisure products with an extensive portfolio, from premium designer ranges to everyday essential products.

**Established in 1860**, Charles Bentley & Son Ltd is a 6th generation family company. From humble beginnings the company has grown to become a global enterprise, supplying thousands of different homeware & garden products to many of the top retailers around the world.

Charles Bentley & Son Ltd's **success** is largely attributed to two key factors; **knowledge and innovation**. As a long standing business our heritage brings a wealth of knowledge passed from generation to generation. Innovation drives the business forward, with continued investment in **new product development**. Charles Bentley & Son Ltd remains agile with an ability to adapt and improve product ranges in this fast paced market.

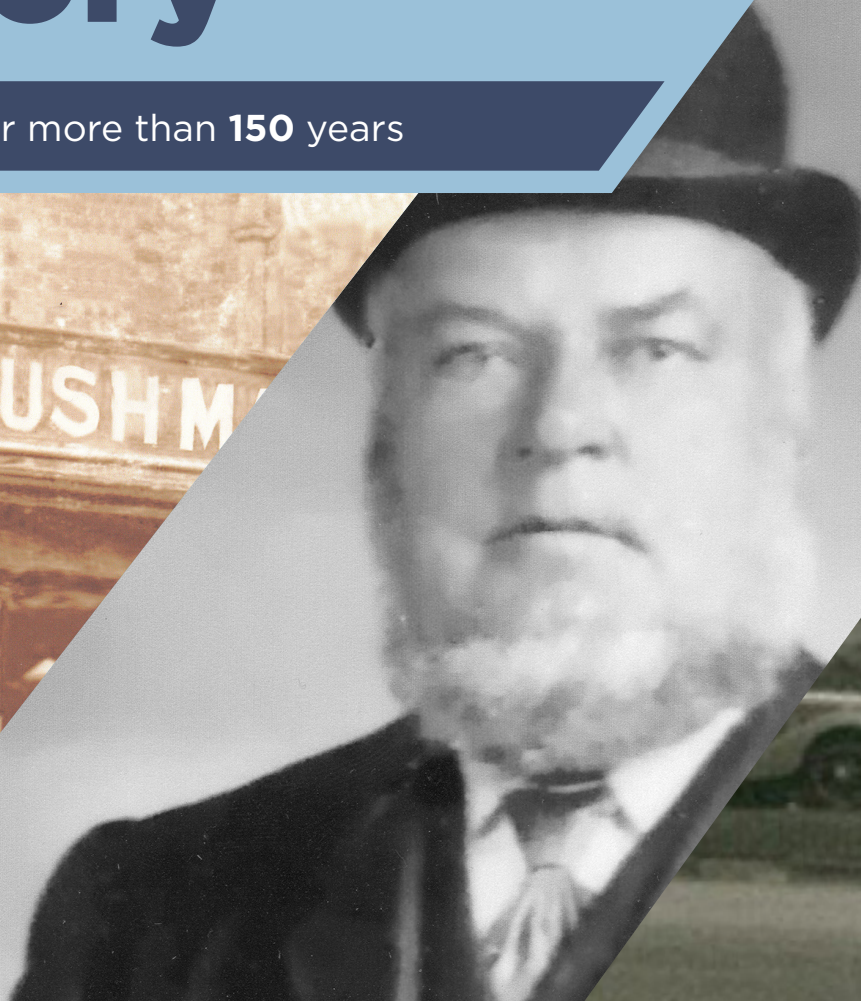

We offer customers a service that is truly valuable and unique: a specialist buying team that communicate with our factories in China, Sri Lanka, Vietnam & Indonesia. This enables us to offer an **extensive product portfolio**, all at **competitive prices**.

# Our History

We have now been in business for more than **150** years

1860

**William Bentley** takes over the business of a local brushmaker.

1910

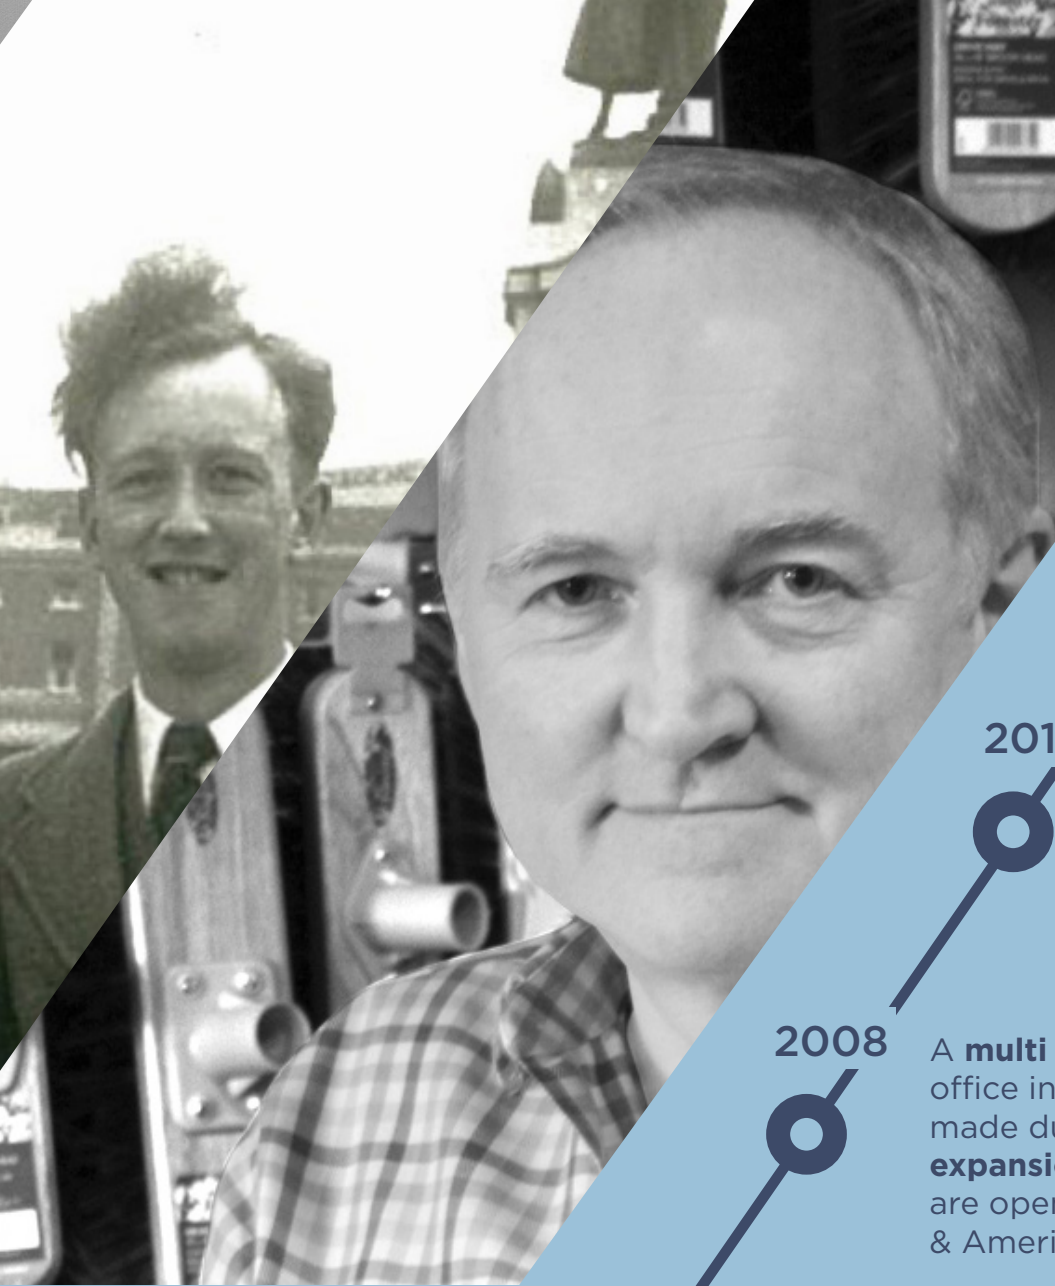

William retires & sells the business to his younger brother Charles for £250.

1971

An **equal partnership** is setup amongst the Bentley family

2019

Our Story  
Continues...

2016

Purchased new **202,000 ft<sup>2</sup>** warehouse to help improve product variety and stock levels.

2015

Half a million is spent **investing** in state-of-the-art brushware manufacturing, **increasing production** rates by one third.

2008

A **multi million pound** office investment is made due to **rapid expansion**. Offices are open in China & America.

2005

Largescale **online expansion** begins, with the launch of a **new website**.

1990

Charles Bentley takes over the business as **Managing Director**.

# Our Services

At **Charles Bentley**, our services are tailored to help companies grow their categories beyond their own limits. Buyers can extend ranges, fill gaps and test new lines. All of our items are mail order ready, drop tested and conform to relevant **British and European standards**. With **years of experience** in a wide range of categories, we can help to give you the edge needed over competitors.

## Dropship

Dropship is the easy, affordable and risk-free way to discover new products for your brand. It means that you can list and sell products without having to stock them. We'll take care of that, as well as the picking, packing, shipping and customer support so that you can focus on growing your business. We aim to make our dropship service as effortless as possible, helping you create a more efficient and streamlined ordering process.

- Experts in global sourcing, new product development and range building
- 15 years of online retail and direct shipping to the customer
- Hundreds of tried and tested products with rich media and descriptions readily available
- Gross margins between 10 - 25%
- Dedicated UK Customer Service Team available to assist partners with customer queries

## Stocked In

We are global suppliers with an extensive portfolio across premium designer ranges and everyday value products. We supply thousands of products, including own brand products and white label goods, to many of the world's leading retailers. With over 350,000 sq ft of warehouses, we can design, manufacture, stock and fulfil your product range requirements.

## FOB

Our manufacturing network covers over 150 suppliers and we can export a diverse product mix directly to your distribution centre.

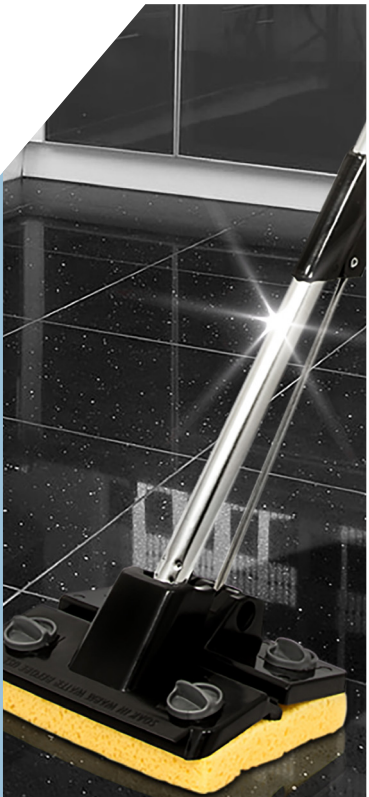

Please Note: A 30% deposit is required for all orders, a balance T/T payment on the presentation of documents.

# Merchandising

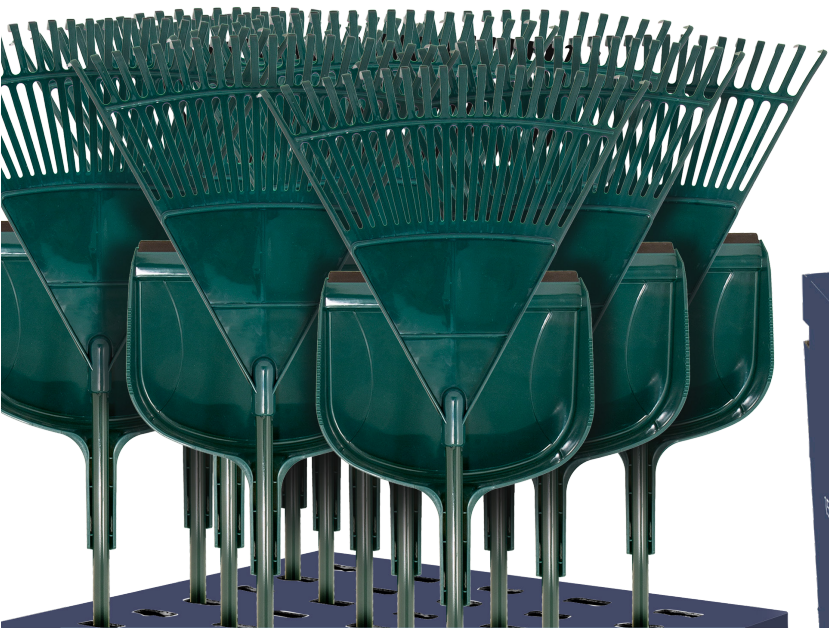

Great merchandising that utilises store space plays a huge part in **maximising product sales** and driving more people to your outlet. We have a **wide variety** of **OFDs**, **CDUs** and **packaging options** available.

## Display Stands

We are **experts** at creating stunning **display stands** that are designed to showcase **products at their best**. With additional POS available, they effectively promote products in a way beyond most other merchandising solutions.

## On Floor Displays (OFDs) & Counter Display Units (CDUs)

Our OFDs and CDUs are the **most popular merchandising solutions** and we have a wide variety to suit all your needs. They're **ideal for promoting key lines** during seasonal periods and launching new products into stores. Plus, these boxes are **easy to ship** and **quick to set up** in store as they have already been made up.

If you're looking for bespoke designs, just contact our sales team – they're always available and happy to help.

Minimum order quantities apply.

## Clip Strips

Our **clip strips** are the perfect solution to capitalise on **cross sales** and **impulse purchases**. With them, you can **easily move** smaller items to a variety of places within your store. For example, why not place your bright promotional dish brushes next to the washing up liquid?

# brights

Brights is a quality range just bursting with colour to attract consumers to buy into a new cleaning range. The colour selection has the same effect as sweets like Starburst, M&M's and Jelly Beans! The vibrant selection of appealing colours guarantees that these products catch the consumer's eye, in store and generate impulse purchases. As a bright and cheerful range displaying all 4 colours in one zone will help maximise interest and drive consumer demand.

Box Qty: 12

**Scratch Resistant Bristles**  
The soft tips of the bristles protect the brush from scratching glass, paint and other surfaces.

**Extendable Handle**  
The extendable handle helps you clean large vehicles and hard to reach places. Extends from 1.2m to 2m.

**Super Grip Handle**  
The super grip neoprene handle helps ensure easy handling and to maximise grip when cleaning.

**Water ON/OFF Switch**  
The handle has a switch so the water supply can be easily switched on or off.

**Hose Pipe Connector**  
The handle can easily be connected to a hose pipe. Water is then fed through the handle to the brush head for cleaning.

Bulldozer Dustpan & Brush

HQ.8015/BY

Colour: Black & Yellow  
Material: Plastic & PVC  
Box Qty: 6

The elite **all weather broom** has both soft and stiff PVC bristles to sweep light dust and heavy debris.

Predominantly used outdoors but also suitable for indoor sweeping in large areas such as warehouses. The bulldozer broom has a unique UK designed bracket solution to improve strength and product durability. Typically described as a 24" workman's broom this product has been manufactured with the highest quality steel for durability and long lasting comfort during use.

**CHARLES BENTLEY**  
EST. 1860  
INDUSTRIAL

**24" Bulldozer Broom**

- Support bracket
- Neoprene custom grip handle
- 400mm all weather, heavy duty utility broom
- Dual bristles in both soft and stiff PVC bristles, specially designed to sweep all light dust and heavy debris.

**Super Grip Handle**  
The super grip neoprene handle helps ensure easy handling and to maximise grip when cleaning.

**Dual PVC bristles**  
The dual PVC bristles are designed to sweep light dust and heavy duty debris with ease, aimed to reduce cleaning time.

**Heavy Duty Bracket**  
The heavy duty bracket gives the broom extra strength for long lasting use.

Our understanding of the wooden brushware market is attributed to over **150 years of experience** and knowledge passed down from generation to generation. The fusion of quality raw materials and skilled manufacturing creates a first-class selection that is perfect for the garden, hardware and commercial markets.

## A step by step guide to ordering bespoke brushware

### Step 1

Select your brush composition from our extensive range.

See page 38

### Step 2

Select your bracket.  
Each composition will state the brackets available with that block.

See page 51

### Step 3

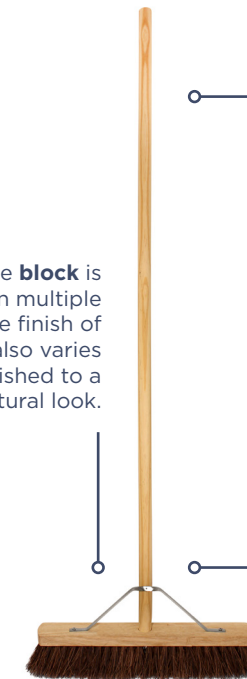

Select your handle. Each bracket will state the handle available.

See page 51

### Step 4

Contact us with your choice.  
Please have the SKU codes for your chosen products when contacting us to allow our team to view your choice.

**Contact details are on the back page.**

We offer both **wooden and metal handles**. Available in a variety of lengths.

The **block** is available in multiple sizes. The finish of the block also varies from varnished to a natural look.

We offer a variety of **brackets** suitable for multiple purposes. The block used determines the brackets suitable.

The fill is available in various **bristles**. Each composition has its own features and benefits making them suitable for different roles.

All our brushware is manufactured in the **UK**

All our brushware is **manufactured to the highest possible standard** in our UK warehouse. We pride ourselves on quality and precision. The descriptions below show the **wide variety of brushware** we have available. We believe our customers should be able to choose the brushware suited to them and our guides help to specify a composition to the role required.

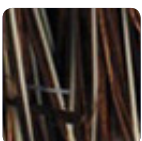

### Natural Coco

Taken from the coconut fruit, it is known for its soft sweeping properties. Perfect for sweeping up dust and light debris.

### Natural Bassine/Palmyra

Found in the southern tips of India, its coarseness and good water resistance makes bassine ideal for stiff scrub brushes. Perfect for use in the garden.

### Union Mixture

(A combination of Bassine and Polypropylene) Adding the Polypropylene provides extra stiffness. Ideal for both outdoor and indoor use.

### PVC & PP

Available in both stiff and soft bristles, PVC is a versatile fibre that is ideal for both indoor and outdoor cleaning thanks to its strength and durability.

### Bassine & Cane

Referred to as a grape and apple mixture it has the qualities of Bassine and Cane in one fill. Ideal for heavy duty cleaning.

Taken from the coconut fruit, it is known for its soft sweeping properties.  
Perfect for sweeping up dust and light debris.

## FSC (Forest Stewardship Council)

FSC runs a global forest certification system with two key components: Forest Management and Chain of Custody certification. This system allows consumers to identify, purchase and use wood, paper and other forest products produced from well-managed forests and/or recycled materials.

## SEDEX (Supplier Ethical Data Exchange)

Charles Bentley & Son Ltd is a member of Sedex ([www.sedexglobal.com](http://www.sedexglobal.com)). Sedex is home to one of the world's largest collaborative platform for buyers, suppliers and auditors to store, share and report on information quickly and easily. The platform is used by more than 38,000 members in over 150 countries to manage performance around labour rights, health & safety, the environment and business ethics.

Sedex is not a standard setting body and doesn't approve or certify our policies and standards. Instead, being a member of Sedex is a sign of Charles Bentley's willingness to share information and to use this information to help manage and improve ethical standard within the supply chain.

## CHSA (Cleaning & Hygiene Suppliers Associations)

The CHSA has driven up standards, making it possible for buyers of cleaning products to be sure when they buy Accredited products that what's on the box is in the box. All members adhere to the code of practice and the Manufacturing Standards Accreditation Schemes for soft tissue products, plastic refuse sacks and industrial cotton mops make sure customers get what they pay for.

## BSI (British Standard Association)

Accreditation means that we have been assessed against internationally recognised standards and operate to the highest levels of quality and service - providing further assurance to you that the certificates we issue are both credible and impartial. This accreditation reduces the risk to you and your customers and gives you complete confidence that we have been independently evaluated for our competence and performance capability.

## ABMA (American Brush Manufacturers Association)

The ABMA exists to help North American brush manufacturers by enhancing industry knowledge, providing an unparalleled variety of networking opportunities and promoting profitability for its members and the industry. ABMA strives to promote and strengthen value for its members to be the preferred and innovative source for broom, brush and mop products worldwide.

The mark of  
responsible forestry

Our **social** and **environmental** policy is committed to the local community as we understand that local issues have a global impact. Therefore we work closely with local and global environmental and organisations to promote good ethical and environmental practice.

- We are committed to working with international and global standards relating to the purchase of timber. These include with both the FSC (forest stewardship council) which is backed by the WWF which has full backing of the United Nations Forestry forum and the International Accreditation Forum to establish good ethical and environmental forest management.
- We are committed to reducing our emission from our fleet of vehicles. We only use low sulphur fuels. All the fleet are maintained to a high standard. Wherever possible we ensure that imported containers are sent by rail to minimise emissions.
- We are committed to the reduction of greenhouse gasses and have changed our power to a green power supplier. We are actively reducing our energy consumption in house.
- We are committed to the minimisation of packaging and work with clients and suppliers to achieve this.
- We are committed to improving waste management systems within the company and recycle 100% of cardboard and supply this direct to paper mills in the UK. All plastic wherever possible is recycled by our injection moulders.
- We are committed to working with the local community and actively work with the country and borough councils as well as environmental groups who are working with a LA 21 policy. We chair the working group for waste reduction and recycling with Charnwood Borough Council.
- We are committed and part of the local Environmental Business Network and Business forum so we can pass on good environmental practices to smaller local companies.
- We are committed to being a good environmental neighbour and have long term ambitions of becoming a ZERO waste business.
