

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long-lasting performance.
- **42.06 mm Outside Diameter:** Suitable for a wide range of applications, offering versatility in design.
- **22 mm Length:** Compact design that fits into tight spaces without compromising performance.
- **35.97 mm Shaft Diameter Compatibility:** Ensures a precise fit for optimal functionality and reduced vibration.
- **Self-Lubricating Properties:** Minimises maintenance requirements, enhancing operational efficiency.

## RS PRO Sintered Bronze Plain Bearing, 42.06 mm Outside Diameter

RS Stock No: 558-422

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a 42.06 mm outside diameter, it is ideal for supporting shafts with a diameter of 35.97 mm, ensuring smooth operation and reduced friction in various mechanical systems.

## General Specifications

|                |               |
|----------------|---------------|
| Product Type   | Plain Bearing |
| Shaft Diameter | 35.97 mm      |

## Mechanical Specifications

|                  |                 |
|------------------|-----------------|
| Length           | 22 mm           |
| Material         | Sintered Bronze |
| Outside Diameter | 42.06 mm        |
