

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1 in Length:** Suitable for various applications, providing versatility in design.
- **0.87 in Outside Diameter:** Ensures a compact fit in tight spaces, enhancing design flexibility.
- **0.62 in Shaft Diameter:** Compatible with standard shaft sizes, simplifying integration into existing systems.

RS PRO 1 in Sintered Bronze Plain Bearing

RS Stock No: 558-508

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low friction and durability are essential, this bearing provides smooth operation and long-lasting performance.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.62 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	0.87 in
