

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **25mm Length:** Suitable for compact installations.
- **32.06mm Outer Diameter:** Ensures a secure fit in standard housings.
- **24.98mm Shaft Diameter:** Compatible with a wide range of shafts.

RS PRO 25mm Sintered Bronze Plain Bearing, 32.06mm Outer Diameter

RS Stock No: 558-406

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable performance and durability. Made from sintered bronze, it offers excellent wear resistance and is ideal for use in environments where lubrication is limited. The bearing's primary benefit is its ability to support radial loads efficiently, making it a crucial component in various mechanical systems.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	24.98 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	32.06 mm
