## **Radiator Protector -20°C Ready-to-Use**

### **PRODUCT DESCRIPTION**

Ready-to-use liquid for radiators, including aluminum alloy radiators, with protective, antifreeze, and anti-boil properties.

- Suitable for refills.
- Mixable with other coolant liquids.
- Exceeds ASTM methods qualifying its protective characteristics.

---

## **APPLICATIONS**

- The product is ready to use and does not require dilution.

- Drain the cooling system of old liquid and refill with the new product after prior cleaning.
  - Can also be used for refills; compatible with all protective liquids on the market.
- 

## TECHNICAL CHARACTERISTICS

- **Appearance:** Clear liquid
- **Color:** Green
- **Odor:** Typical
- **Specific Weight:** 1.050 kg/L
- **pH (at room temp):** 8.5
- **Freezing Point (at room temp):** -20°C
- **Boiling Point (1.8 bar):** +121°C

*The above data do not constitute specifications and are subject to normal production tolerances.*

---

## STORAGE

Store in the original, intact container at room temperature and away from direct sunlight for over three years.

---

## PACKAGING

- **Code 8050:** 1 L HDPE bottle
  - **Code 8051:** 4.5 L HDPE bottle
  - **Code 8054:** 2 L HDPE bottle
- 

## NOTES

For safety information about the product, please refer to the safety data sheet.
