

## TECHNICAL DATA SHEET

### RS 448-190 Cleaning Solvent

RS 448-190 Cleaning Solvent is a fast-drying solvent specially formulated for the quick and efficient cleaning of electrical equipment. It replaces CFC solvents such as 113 due to rapid cleaning and fast evaporation rates.

- Non-CFC, non-halogenated cleaning solvent will not attack the Ozone Layer.
- Excellent removal of greases, oils and general soils from a wide variety of components and assemblies.
- Leaves a perfectly clean, dry surface - conventional solvents often leave greasy deposits which attract dust and dirt.
- Harmless to most plastics, rubbers, elastomers, and surface coatings.

#### Typical Properties

Specific Gravity @ 20°C (g/ml):	0.80
Residue on Evaporation:	<1ppm
Evaporation Rate:	16 (with ether as 1)

#### Packaging

2.5 Litre Bulk

#### Order Code

RS 448-190

#### Product Use

Electrical contacts, tape heads, PCB's, components in electronic and video equipment, computers, optical and precision instruments, cameras etc. Product contains flammable solvent so do not spray onto live electrical equipment or other sources of ignition. Immerse surface to be cleaned or spray onto surface to excess and allow to evaporate. A brush or foam tipped bud may be used to remove any stubborn deposits.
