

# Paladin Tools®

## Premise Service Kit

Kit now includes:  
LAN and telecom cable  
test set 1573

The Premise Service Kit now contains all the tools you need for twisted pair and coaxial cable installation for voice & LANs. **What's changed?** It now contains our new LAN & Telecom cable testing set with full-range continuity testing, line condition & signal tracing. It also contains an RJ45 8-way adapter to use with the 1573 or your butt set.

Kit now includes:  
RJ45 adapter 1902
