# J4000
LABEL PRINTER

Experience easy. No set up. No adjustments. No waste.

Industrial Label Printer

High-impact, precision full colour that lasts

Printing logos, icons, pictures and complex procedures means you need a lot of two things: one is materials and two is time. That is, if you're using the wrong printer. What you need is an inkjet printer that can balance the complexity of safety and compliance labels with the demands of an industrial environment. Say hello to the BradyJet family of industrial inkjet printers.

Get photo-quality, full-colour labels whenever you need them while reducing your inventory of labelling supplies and material waste. BradyJet printers let you create the compliant, long-lasting labels, signs and tags you need to create a safer, more efficient workplace.

- **Create compliant labels and signs** - Trust your regulatory labelling offers the colours needed for ISO, CLP/GHS, BS5609, ANSI and much more

- **Extend label performance** - Rely on specially formulated materials and ink designed to stand up to harsh environments

- **Maximise impact, improve efficiency and reduce waste** - Stock and print only what you need, when you need, in photo-quality full-colour every time

Going the distance

At Brady, we go the distance to make sure you get what you need. Whether it's field work or lab work, we've got materials for every application.

Barcodes, images, small text - your most important information needs to stay put, in any type of environment. From freezing temperatures to blistering heat, when used with solvents or in outer space, simply put, Brady materials are all about high performance. Our scientists make sure of it. Brady's R&D programme focuses on solutions that bring durability, flexibility and efficiency to every workday.

We offer hundreds of labels, so be sure to browse through the entire collection. And, as always, let us know if you need more.

BradyJet J4000 Colour Label Printer

Complex, highly specific labels in high volumes could mean lower quality print resolution and ineffective identification with other printers. But not with the BradyJet J4000. Maximise productivity and impact with this industry workhorse built to handle the demands of your demanding label and signage needs. Create up to 5,000 impactful full-colour labels per day up to 203.2 mm wide.

- **More time for critical tasks** - When the printer does the busy work, you have more time to focus on the important work needed to keep your operations running smoothly
- **Prints well with others** - Create however it works best for you, then easily print PDFs or from third-party software packages with the optimised Windows driver

Specifications

Software and Connectivity	
Connectivity Options	USB, Ethernet
Software Compatibility	Brady Workstation Windows based driver for 3rd party software use
User Interface Type	PC
Operating System	Windows® 7, Windows® 8, Windows® 10
Physical/Operational Characteristics	
Dimensions	438.15 mm (W) x 231.14 mm (H) x 438.15 mm (D)
Weight (kg)	16
Printer Features	
Recommended Usage per Day	5000
Print Technology	Inkjet
Colour Capability	Full Colour
Print Resolution (dpi)	4800
Max. Print Width (mm)	203.20
Max. Label Width (mm)	203.20
Max. Print Length (mm)	609.60
Media Format	Media on Roll and Ink in Cartridge, supplied separately
Print Speed (mm/sec)	114.30
Includes	(1) BradyJet J4000 Printer (1) Power Cord (1) CMY Ink Cartridge with built in Printhead (1) Pack of 2 Ink Cartridge Storage Caps (1) Media starter roll 101.60 mm wide B-2595 Vinyl (1) USB Cord (1) USB Flash Drive with product information (1) Brady Workstation Basic Suite

Design, print and manage your labelling with software

Brady Workstation Desktop Software

Design and print labels seamlessly with Brady Workstation software suites and apps specially designed for a variety of common industry-related tasks. Along with popular time-saving features like auto-formatting and built-in templates, Brady Workstation features an intuitive interface that integrates seamlessly with the work you do.

Other apps and suites are available:

1. Go to **workstation.bradyid.com**

2. Select the apps and suites you want

For more information and to get started, go to **workstation.bradyid.com**

Safety and Facility Identification Suite

Make colourful visuals to keep your facility safe and compliant. This group of apps helps you create signs, labels, pipe markers and lean visuals. Use predefined templates or customise to suit your needs.

Keep your facility safe and compliant by creating custom signs, label and pipemarkers, adding visual safety guidance. **Workstation.BradyID.com/SafetyAndFacility**

Laboratory Identification Suite

Ensure labels for all your lab samples and equipment are crisp, clear, readable and contain all necessary information. Easily design and create labels for your cryovials, centrifuge tubes, bottles, conicals, slides and other samples in your laboratory.

Ensure labels for all your lab samples and equipment are crisp, clear, readable and contain all necessary information. Easily design and create labels for your cryovials, centrifuge tubes, bottles, conicals, slides and other samples in your laboratory. **Workstation.BradyID.com/LAB**

Product Wire Identification Suite

Quickly identify your products and wires with customised text or graphical labels, using serialised or imported data.Quickly identify your products and wires with customised text or graphical labels, using serialised or imported data.

Quickly identify your products and wires with customised text or graphical labels, using serialised or imported data.Quickly identify your products and wires with customised text or graphical labels, using serialised or imported data. **Workstation.BradyID.com/ProductandWire**

GHS/CLP Chemical Identification App

Get a streamlined label creation process so you can easily enter the data just once from your SDS sheets, then create and print GHS labels on demand. You can also auto-populate your GHS label using the built-in chemical database.
